

## Your reliable partner in China

*China is a great place to buy from. No matter if you need consumer products, professional equipment or parts. China is the place to be. Over the past 25 years, China's industrial output grew by a staggering 12% annually. Based on its great infrastructure, competitive suppliers, well trained employees, and a strongly committed government.*

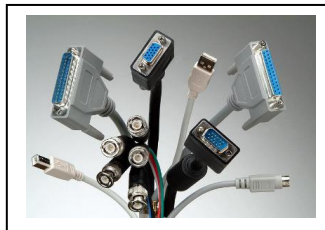

*And still, doing business in China is not that easy. The language and the culture form a gap, creating frequent disappointments. Too often, Chinese products do not meet customer expectation and/or delivery schedules.*

*The DQM Group has been operating in China since 2004. Helping buyers from Europa and North America to make use of the competitive opportunities that China offers, while minimising your risks and investments.*

**"So, how can we support you in achieving cost reductions, minimizing risks?"**

*From our local presentation in China we can:*

- *Analyses and select suppliers, that fit your requirements*
- *Support you in getting clear agreements with your supplier*
- *Supervise the processes, creating your products*
- *Perform inspections on your products*
- *Control shipments and timely delivery of your products.*

### **About Us**

*We, the employees from DQM, have a rich experience in managing the quality of Chinese products and suppliers. We can support you in closing the cultural gap and the communication gap, so that you can make use of the opportunities that China offers. Improving your business, reducing your costs, avoiding risks and unpleasant surprises. Our experts, based in China and in Europe, bring in the required knowledge and experience.*

**We look forward to hear from you!**
